THE BENEFITS OF HOME-SCHOOLING

1. From a Christian standpoint Home-Schooling fulfills God's mandate that parents be responsible for the training of their children (Deut. 6:4-9; Prov. 22:6; Eph. 6:4).

2. Home-Schooling allows the mother the opportunity to fulfill God's role for her as a *"keeper (worker) at home"* (Titus 2:5; I Timothy 5:14).

3. Home-Schooling provides a safe learning environment.
(There are no “box cutters” illegal guns, knives, and gangs to worry about)

4. Home-Schooling provides a setting whereby family bonds are strengthened (the children and parent relationship is enhanced).

5. Home-Schooling provides a flexible schedule whereby the family can be freed to pursue extra activities during the week (traveling, ministries, music, etc.) which would be difficult in a regular school schedule.

6. Home-Schooling provides correctly balanced socialization (whereby children learn how to get alone with older and younger siblings and learn how to relate to their parents; parent-child communication is enhanced).

7. Home-Schooling insulates your children from ungodly peer influences.

8. Home-Schooling offers protection from false teaching
(like evolution, humanism, liberalism, New Age philosophies).

9. Home-Schooling, if properly done, will provide a superior education.
--Personal attention
--Personal concern
--Lower student-teacher ratio than any school
--Excellent teaching materials are available
--Character and discipline development
--Teaching is commensurate with child's abilities and interests

10. Home-Schooling sharpens the education and skills of the involved parents.

11. Support groups, legal protection, and educational training are provided in most states.
